INSTALLATIONS IN PARTNERSHIP WITH

Our Company designs and installs automated agri-food systems and industrial plants, since twenty years.

Continuous researches, in our sector, allow us to improve the past and innovate the future, by the continuous development of new projects.

Market researches allow our Company to always meet the customer's expectations, anticipating their needs.

The direct collaboration between designers and installers, allows to better evaluate all the possible features of the project, to be able to always develop the best solutions and to meet the customer's needs.

Borsari Group - Silos and warehouses storage - IT

Riseria Europea - Rice mill - IT

Latella Sementi S.r.l. - Seeds mill - IT

Az. agr. Gavio Raffaella - Farm setting - IT

Nuovo Molino di Assisi S.r.l. - Assisi mill - IT

F.lli Ferrari S.n.c. - Drying and storage plant - IT

STORAGE

Flat bottom silos

Hopper silos

Truck load silos

Automated warehouses

Hopper silo structure

Truck load silo ladder access

VENTILATION

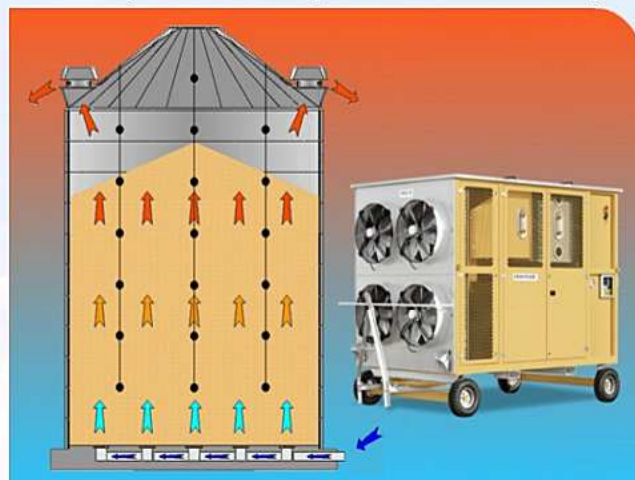

Silos ventilation panels

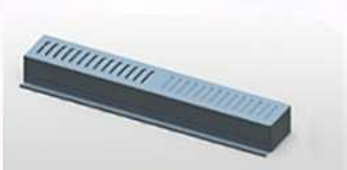

Ventilated silos platform

Silos air system by GRANIFRIGOR cooler with temperature control by means of silothermometry

Carriageable ventilation panels

Warehouses archway conduit

HANDLING

Chain conveyors

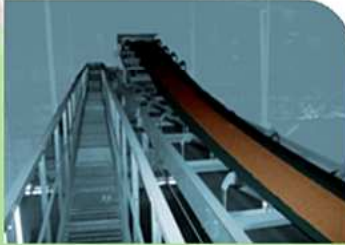

Belt conveyors

Bucket elevators

Rotary automatic extractors

DRYING

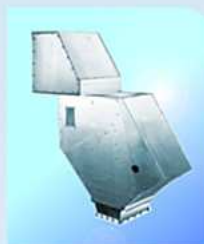

PRECLEANING AND CLEANING

Rotary precleaner

Aspiration cleaner

Rotary cleaner with aspiration

DRYERS DUST SUPPRESSION SYSTEM

Air passage chamber

Rotary filter

DUST FILTRATION SYSTEM

Pit filters

Sleeve filters

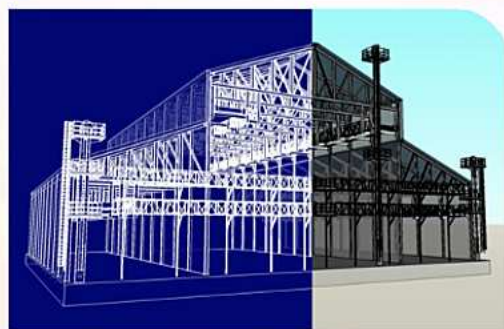

STEEL STRUCTURES

Supporting towers - processing towers - platforms - catwalks self-supporting

Reticular trusses
